Order Information/Truck Schedule	63

TRAY SIZES

MIX AND MATCH ORDERING

For your convenience, we now produce most of our cultivars rooted in trays of 51 and sold as quantities of 50. This means you can receive twice the varieties as products produced in a 102 tray. Unless otherwise noted, the tray size will be a 51-count tray.

51-count tray

50-COUNT STRIP TRAYS

Although these items are sold in increments of 50, the product is produced in strips of 25-count to allow better spacing on our benches. Items in this tray are indicated with this symbol and include most Begonias and Geraniums.

Strip tray
50

There is only one thing to remember when ordering all of our products (other than Collections): order in increments of 50 per variety, regardless of the tray size!

Certified:

MPS
Sustainable Quality

D.S. Cole Growers is certified by the international organization MPS as a sustainable grower. We also hold a GAP (Good Agriculture Practices) certificate from the USDA (more about certifications on page 62).

ON OUR COVERS

Our front cover features new Echeveria Marrom. The back cover features new Calibrachoa MiniFamous Neo Pink Hawaii.

HOUSE PLANTS

CALLISIA

New Callisia repens Pink Lady
• A variegated form of Turtle Vine
• Slow growing

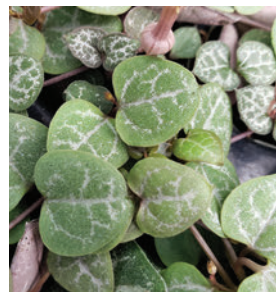

New Callisia repens Turtle Vine
• Gently mounding and hanging

CEROPEGIA

New Ceropegia woodii Silver String of Hearts

Ceropegia woodii String of Hearts
• Trailing habit • Best when coiled on top of the pot to fill out the plant
• Pinching not recommended

CHLOROPHYTUM

Chlorophytum Spider Plant ppaf

CTENANTHE

New Ctenanthe burle-marxii
• 20" • Upright growing

Ctenanthe like bright light and love warm temperatures

New Ctenanthe burle-marxii amagris
• 12" • Very full and wide growing

New Ctenanthe setosa
• 24"

FICUS

New Ficus repens Green
• 6" • Creeping fig • Moderate light
• Pinch for fullness

FERNS

New Fern Asplenium nidus
• 20" • Bird's Nest Fern • Feed sparingly
• Likes low light

New Fern Pellaea rotundifolia
• 6" • Button Fern • Likes low light

GIBASIS

Gibasis geniculata Tahitian Bridal Veil
• 10" • Partial sun to shade
• Trailing habit

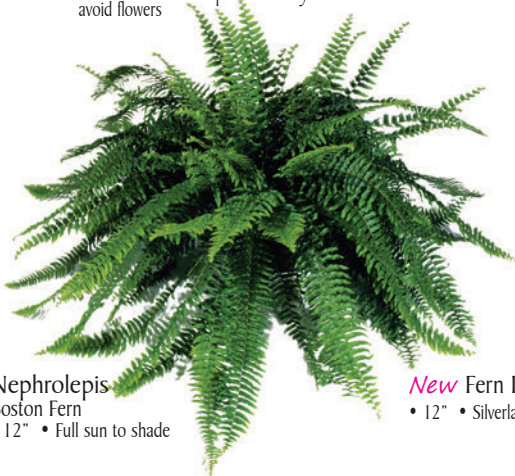

GYNURA

New Gynura Aurantiaca Purple Passion
• 10" • Best when kept in short days to avoid flowers

Growing TIP

Boston Ferns are quite adaptable. Use in sun or shade combinations.

Nephrolepis Boston Fern
• 12" • Full sun to shade

New Fern Pteris evergemiensis
• 12" • Silverlace Fern • Moderate light

MULTI-LINERS

MULTI-LINERS

Supercal Premium Bonfire Mix
Bred by Sakata - Supercal Premium Bonfire Caramel Yellow, French Vanilla and Cinnamon

Candy Shop Pixie Stix Mix
Bred by Westhoff - Calibrachoa Candy Shop Grape Splash and Candy Shop Fancy Berry. This is a two-variety combination.

TRIXI LINERS

New Purple Lace^{ppaf}
Calibrachoa MiniFamous® Neo Dark Blue, Neo Double PlumTastic and Verbena Blues™ Lavender + Eye

New Break the Ice ^{ppaf}
Calibrachoa MiniFamous® Neo Blue, Neo Velvet Ice and Neo Double Silver Blue

New Crystallize ^{ppaf}
Petunia Headliner™ Crystal Sky and Headliner Night Sky®

All of our multi-liners come separately with one component in a cell for better performing results. You will continue to purchase in the same increments, but we send each of the rooted cuttings individually for you to pot as desired.

This approach cuts your costs by allowing you to use fewer cutting per hanging basket. We suggest using six per basket, instead of nine.

This applies to Trixi Liners, Kwik Kombos, and Multi-Liners shown on pages 6-9.

Berry Daring ^{ppaf}
Calibrachoa MiniFamous® Neo Purple, Neo Salmon Pink & Eye and Neo Dark Blue

Caribbean Cocktail ^{ppaf}

COLLECTIONS: FOLIAGE

COLLECTIONS - FOLIAGE

Bromeliad Collection

Total Plants: 100

Varieties: 4

These Neorogelia Bromeliads are easy to grow and love filtered light. Beautiful foliage and over time will be self-branching. Start in 4" pots.

Hedera Collection

Total Plants: 102 Varieties: 6

This year, we have updated the varieties in this collection. There are 6 strips of 17-count liners of each variety making a total of 102 cells.

Pilea Collection

Total Plants: 51

Varieties: 3

Add variety to your house-plant mix with these upright growing Pilea. This collection includes three Pilea.

Fern Collection

Total Plants: 51

Varieties: 3

This program offers a collection of three different ferns that are great for shade and semi-shade planters: Pteris Cretica Rowerii, Pteris Cretica Mayi and Nephrolepis Exalta (Boston Fern). The collection is one 51-count tray.

Hoya Collection

Total Plants: 51 Varieties: 3

This collection consists of three Hoya. They thrive in low light conditions and prefer to be dry. Best in 4" pots and 6" hangers.

Tropical Foliage Collection

Total Plants: 100 Varieties: 4

This collection includes Dracaena marginata, Schefflera arboricola, Crotons, and Dracaena sanderiana. Can be planted by themselves or used as accents with other plants.

Zebra™ Stripes Collection

Total Plants: 51

Varieties: 3

This collection includes 3 popular Tradescantia. We have collected and trialed many different Tradescantia to provide these 3 very differently patterned varieties:

Rainbow Zebra, White Zebra, and Yellow Zebra.

*All collections come with variety specific tags.

COLLECTIONS: FLOWERING

COLLECTIONS - FLOWERING

Alstroemeria Collection

Total Plants: 100
Varieties: 4

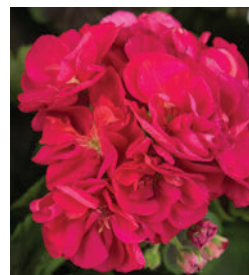

This collection consists of four varieties in four 25-count strip trays making 100 total plants.

Begonia Non-Stop Mix

Total Plants: 50
Varieties: Multi

Non-Stop Begonias are great tuberous Begonias with an 8-10" height. This tray is a complete mix in 25-count strip trays.

Begonia Angel Wing Collection

Total Plants: 51 Varieties: 3

This new collection comes in 3 strips of 17 from a selection of assorted Angel Wing types.

Begonia Rex Collection

Total Plants: 100 Varieties: 4

This program offers a collection of four 25-count strip trays, each having a different variety, totaling 100 plants.

Geranium Novelties Collection

Total Plants: 100
Varieties: 4

This collection is made up of 4 classic Geraniums having different forms of variegated leaves. Includes 25 plants each of Brocade Fire, Brocade Cherry Night, Brocade Salmon Night and Vancouver Centennial.

*All collections come with variety specific tags.

COLLECTIONS: FLOWERING

COLLECTIONS - FLOWERING

Gerbera Patio

Glorious Collection

Total Plants: 100

Varieties: 4

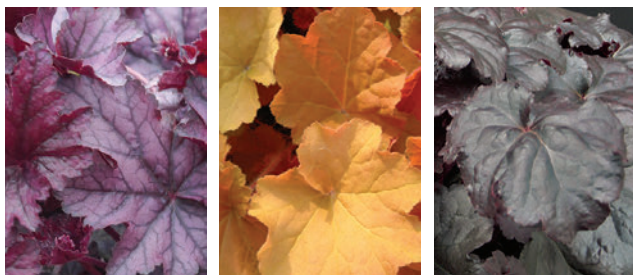

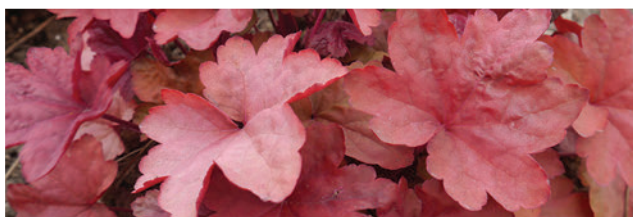

The Glorious series are part of the large flowering Patio series. What sets these apart is the very double-frilled flower form.

Garvinea Majestic Collection

Total Plants: 51 Varieties: 3

This special selection of new Garvinea types have large flowers and bold colors.

Heuchera Collection

Total Plants: 51 Varieties: 3

This collection is a total of 51 plants with three of these four varieties: Heuchera Caramel, Heuchera Coral Sea, Heuchera Black Sea and Heuchera Happy Purple.

Portulaca Color Blast Collection

Total Plants: 51 Varieties: 3

This collection includes three bicolor flowering varieties: Lemon Twist, Mango Mojito and Watermelon Punch.

NEW Collection

Sunbeckia Collection

Total Plants: 51 Varieties: 3

This collection includes three new Rudbeckia: Sunbeckia Carolina, Laura and Luna. They reach a height of 14-16" and are consistent in habit since they are produced from tissue culture. We recommend one plant per one gallon container or three per 12" container.

COLLECTIONS: SUCCULENTS

COLLECTIONS - SUCCULENTS/CACTI

Absolutely Aloe Collection

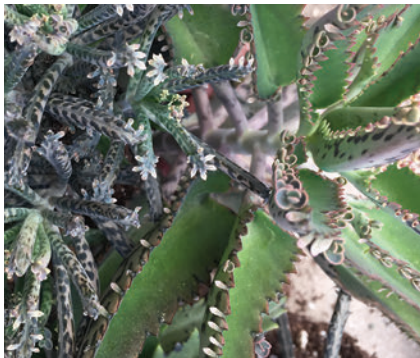

Total Plants: 102
Varieties: 6

This program offers a collection of two 51-count trays with six assorted Aloe varieties.

Gators and Crocs Collection

Total Plants: 51 Varieties: 3
This is a collection of 3 different Kalanchoe, otherwise known as "Mother of Millions."

Specifically Sedum Collection

Total Plants: 102
Varieties: 6

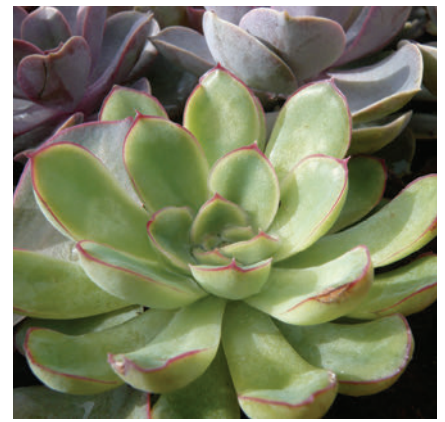

This two-tray program offers a collection of six different winter hardy Sedums.

Cacti Collection

Total Plants: 102 Varieties: 6

This collection includes a selection of six popular cacti.

Exclusively Echeveria Collection

Total Plants: 102 Varieties: 6

Echeverias are the most popular genera among succulents today. This two-tray collection contains six different varieties of only Echeverias.

Sedum

Sunsparklers Collection

Total Plants: 51
Varieties: 3

Now offered as 51 tray, this collection includes three different varieties.

Spectacular Succulents Collection

Total Plants: 204 Varieties: 12

This program offers a collection of four 51-count trays with 12 assorted succulent varieties including upright, mounding and trailing types. Great for individual pots or as combination planters. Growers can learn which varieties work best for future orders.

Sempervivum Collection

Total Plants: 102
Varieties: 6

This program offers a collection of two 51-count trays with six assorted Sempervivum varieties. These are winter hardy varieties which grow quickly and multiply. Varieties can include arachnoideum, calcareum, "candy floss", pireaicum, tectorum, and italicum x arachnoideum.

*All collections come with variety specific tags.

SUCCULENTS

Echeveria

New Salsa Verde
• 3" • Large growing • Shiny leaves

Echeveria
Collection  Page 13

New Amistar
• 3" • Large growing • Gray leaves

New Lilac Wonder
• 3" • Medium growing • Thick, pink leaves

New Marrom
• 3" • Good round shape • Chocolate leaves

New Mexicana
• 4" • Fast growing • Pointed leaves

Growing TIP

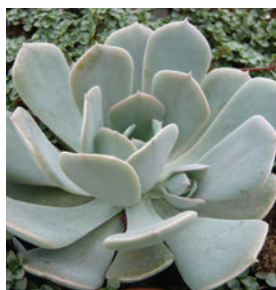

Looking for large growing Echeveria? Try Echeveria Holy Gate or Runyoinii.

Agavoides
• 3" • Traditional, solid plant

Grosso ppaf
• 3"

Holy Gate
• 4" • The largest, fastest growing Echeveria we offer
• Can fill out an 8" pot

Blue Bird ppaf
• 3"

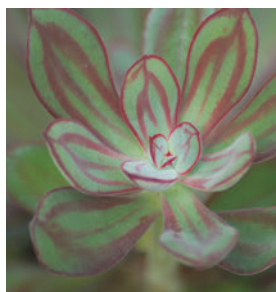

Blue Prince
• 3" • This is a large growing variety

Giant Blue
• 3" • This variety can easily fill a 6" pot over time

Miranda
• 3" • Large growing variety

Nodulosa
• 6" • Interesting color pattern and one of the few Echeverias that tend to have an upright habit.

Parva
• 3" • A well-rounded variety
• Aqua leaves with rosy tips

Perle Von Nurnberg
• 3" • A popular and easy Echeveria
• Formerly labeled Metallica

Purple Perle Von Nurnberg
• 3" • Similar to Perle Von Nurnberg with rich pink/purple tones

Preta
• 3" • One of our favorites • Almost black foliage

Pulidonis
• 3" • Great contrasting leaf margin

Runyoinii (Topsy-Turvy)
• 4" • A large, fast-growing variety with a rich, blue-green color

Shaviana
• 3" • Nice late summer flowers and unusual wavy leaves

SUCCULENTS

COTYLEDON

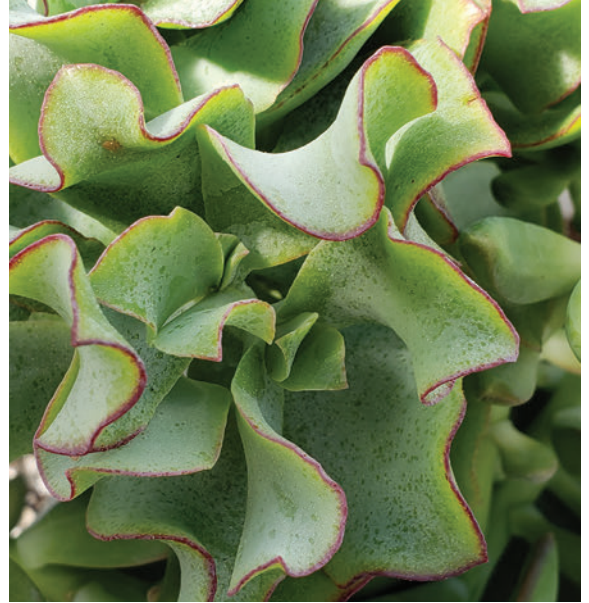

New Cotyledon Higginsae
• 12" • Beautiful, upright habit • Chalky blue leaves

CRASSULA

Crassula portulaca hobbit
• 6" • The leaves are what make this jade so appealing

Crassula Curly Green
• 8" • Adds an interesting texture • Easy to grow with a mounding habit

FAUCARIA

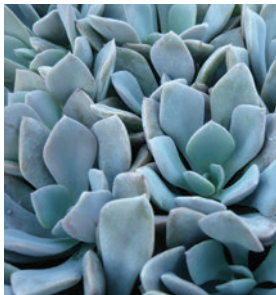

Faucaria tuberculosa
• 3" • A low growing native of Africa having thick, jaw-like leaves with yellow flowers

GASTERIA

New Gasteria Green Ice
• 5" • Beautifully patterned leaves

GRAPTOVERIA

Graptoveria Debbie
• 4" • Rich color on thick leaves

KALANCHOE

Kalanchoe thyrsifolia
• 8" • Very popular • Leaf edges turn red when grown in full sun

Kalanchoe hortale
• 14" • Mother of Millions - New plantlets are produced on the leaf margins

OROSTACHYS

Orostachys
• 6" • These Chinese Dunces Cap flower in the late summer and fall

PACHYPHYTUM

Pachyphytum Dark Red
• 4" • Deep reddish gray color • Similar habit to Echeveria

SENECIO

Senecio Orange Flame ^{ppaf}
• Nice foliage display is highlighted by fall blooms of bright orange

COMPANION FOLIAGE

ALOCASIA

New Alocasia gageana California
• 40" • Great accent plant for sun or light shade

New Alocasia Portadora
• 72" • Super large growing Alocasia

Alocasia Regal Shields ^{ppaf}
• 30" • Full Sun to partial sun
• A rich, dark accent

ALTERNATHERA

Alternanthera Little Ruby

ARTEMESIA

Artemisia Fancifillers™ 'Sea Salt'
• 6" • Spreading • Full sun
• Hardy to at least zone 5
• Great silver accent to mixed planters

CORDYLINE

Cordylina Super Star ^{ppaf}
• What makes Super Star different is the very wide leaves

Cordylina Can Can ^{ppaf}
• This stunning variety has stripes of green, pink and cream

Cordylina Red Star
• Cold tolerant
• Can be held all winter at 45°

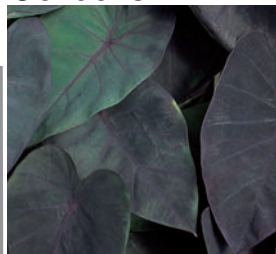

Cordylina Black Knight
• Faster than Red Star
• Rich dark foliage

Cordylina Torbay Dazzler
• A stunning variety

COLOCASIA

Colocasia Black Magic
• 36" • Full sun to partial shade
• Water loving

Delairea odorata "German Ivy"
• 8" • Sun to partial shade
• Aggressive hanging foliage

DICHONDRA

Dichondra Silver Falls
• First availability is Week 9
• Trailing • Sun to partial shade

Didelta Fancifillers™
Silver Strand
• Outstanding summer accent plant, native to South Africa

ENSETE

Ensete Maurelii, Red Abyssinian Banana
• 48" • Full Sun • Subject to availability
• Red leaves brighten as they mature

Eucalyptus Baby Blue
• 16" • Full Sun • Aqua blue foliage

DRACAENA

DOROTHEANTHUS

Dorotheanthus Mezoo Trailing Red
• Trailing • Quick growing
• Good alternative to Vinca Vine

Dracaena indivisa
• Sun • Upright
• Grow as an accent plant to give some vertical dimension

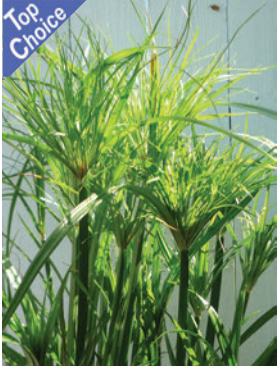

DURANTA

Duranta Gold Edge
• 12" • Spreading
• Full sun

COMPANION FOLIAGE

GRASSES/GRASS-LIKE

Nile Princess™ Cyperus
• 16" • Sun to partial shade
• Grow moist in 4" or larger pots

Little Prince Cyperus
• 18"

Pennisetum Rubrum
• 30" • Sun • Hardy to Zone 9
• Fantastic accent grass

Pennisetum Skyrocket ppaf
• 30" • Distinct green and white variegation
• More vigorous than Fireworks

Nile Queen™ Cyperus
• Great accent plant can grow over 4 feet in height

Pennisetum Fireworks ppaf
• 24" • Dazzling color
• Slower growing than its cousin, Pennisetum Rubrum

• Wetland reed/OK in house

Juncus Blue Arrows
• 36" • Hardy to Zone 5
• More vigorous than others
• Beautiful aqua blue foliage

MUEHLENBECKIA

Muehlenbeckia Wire Vine
• 4" • Sun to partial shade
• Also makes a good houseplant

MUSA

Musa Dwarf Cavendish
• Full sun
• A true banana that can grow 3' in the first year

PAPAYA

Papaya
• Up to 3-feet in height in the garden
• Likes fertilizer
• Great accent plant

PLECTRANTHUS

Lemon Twist™ Plectranthus
• 10" • Sun to shade
• Stunning contrast
• Upright

White Surf™ Plectranthus coleoides
• 8" • Sun to shade
• Trailing • Green and white foliage • Vigorous habit

SALVIA

Salvia Argentea
• 4" • Sun • Texture accent
• Silvery foliage,
• Biennial; flowers year 2

SENECIO

Senecio Silvery Velvet
• 10" • Soft texture

Senecio Angel Wings ppaf
• Grown from tissue culture • Full sun • Leaves are silvery, gray-white

SETCREASEA

Setcreasea Purple Queen
• 7" • Sun or shade
• Nice slow growth
• Great in combo planters

Setcreasea Purple Variegata
• 7" • Sun or shade
• Similar to Setcreasea Purple Queen, but with soft, subtle variegation

SOLANUM

Solanum jasminoides aurea variegata
• 8" • Sun to partial shade • Variegation with a yellow theme
• Vining • Flowers

STROBILANTHES

Strobilanthes Persian Shield
• 12" • Sun to partial shade
• Purple and silver foliage shines in the sun

VINCA VINE

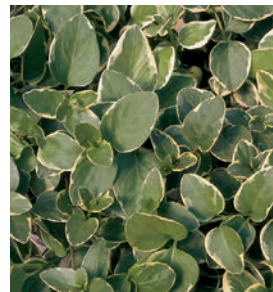

Vinca Expoflora
• Lots of white in this variegation

Vinca Maculata
• Green and yellow/cream trailing foliage

Vinca Wojo's Jem USPP 11809
• Green with cream centers
• Sun • Trailing

Vinca Major Variegata
• Green and white trailing foliage

BEGONIAS

ELATIOR BEGONIAS

New Borias ppaf
 • 6" pots - Great for Hangers
 • Salmon pink with creamy edge

Move 2 Joy Pink ppaf
 • 4" and 6" pots
 • Fully double flowers
 • Medium sized plants

Move 2 Joy Passion Red ppaf
 • 4" and 6" pots
 • Fully double flowers
 • Medium sized plants

Move 2 Joy White ppaf
 • 4" and 6" pots
 • Fully double flowers
 • Medium sized plants

Growing TIP

Elatior Begonias are one of the longest flowering potted plants available. Best grown as a programmed crop - can be set up to fill your benches all year. For best results, start this crop at temperatures above 65° F. Don't allow pots to ever go completely dry. Full sun is fine until May, at which time some shading is required to avoid burning of the leaves. Call us directly for additional cultural directions.

DAHLIA

XXL SERIES

Tabasco ppaf
• 18"

Taxco ppaf
• 18"

Ensenada ppaf
• 18"

Cancun ppaf
• 18"

Veracruz ppaf
• 18"

Sunset ppaf
• 18"

Durango ppaf
• 18"

Merida ppaf
• 18"

Growing TIP

XXL Dahlias from Dummen have a strong upright habit and are as tall or taller than Hypnotica Dahlias. They have huge flowers and can be grown easily in 6" pots or, preferably, larger sizes. B-Nine applications during the first 6 weeks after planting make a more full and attractive presentation. We recommend a fungicide drench on Dahlias.

- 15-18" with flowers
- Flower size is 4" - 5" in diameter

GARVINEA® SERIES

New Garvinea Sweet Sparkle

New Garvinea Sweet Vibe

Garvinea Femmy ppaf

Garvinea Sweet Frosting ppaf

Garvinea Sweet Memories ppaf

- 11-14" with flowers
- Flower size is 3" - 3.5" in diameter

New
Garvinea
Majestic

Garvinea Sweet Smile ppaf

Garvinea Sweet Love ppaf

Garvinea Sweet Sunset ppaf

Growing TIP

Garvinea are Gerbera bred for outdoor use. Whether in a container or in the ground, each plant grows stronger with up to 15 stems at once.

Grow in full sun in 6" pots or larger. Crop time is approx. 8-10 weeks. Plants can be grown at 59° to 68° until flowering when temperatures can be dropped.

FLOWERING PLANTS

EUPHORBIA

New Euphorbia Euphoric Double White
• A doubled version of the popular Euphoric White

Euphorbia Glitz
• 10" - 14"
• Extremely well branched due to production from seed

Euphorbia Euphoric White ppaf
• 14"
• Good performance from Syngenta

EURYOPS

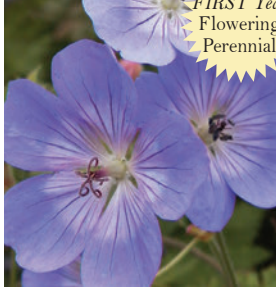

Euryops Sonnenschein
• 12" • Sun
• Full upright grower
• Clean yellow color for early spring show

GAURA

Gaura Belleza Dark Pink ppaf
• 14" • Sun, mounding
• Perennial in Zone 5

GERANIUM

Geranium Rozanne
• A true, hardy perennial Geranium
• Easy to flower
• First year flowering

HELIOTROPE

Heliotrope Fragrant White
• 12" • Sun • Upright
• White blooms on vigorous growth - responds well to B-9

Heliotrope Fragrant Delight
• 12" • Sun • Upright
• Deep blue color and fragrance are the selling points

HELIOPSIS

Helioopsis Punto Rosso Compact ppaf
• 18"

Growing TIP

Hardy to zone 3 and should be grown like an annual to flower the first year. A one gallon pot is ideal.

HEUCHERA

Heuchera Black Sea ppaf

Heuchera Caramel ppaf

Heuchera Happy Purple ppaf

These Heuchera make great accents. They are also a solid perennial and have been propagated from tissue culture so they will develop good branching.

Heuchera Coral Sea ppaf

ISOTOMA

Isotoma Fizz N Pop Glowing Violet
• 10" • Upright habit • Full sun
• Good flowering all summer

HELLEBORUS

VIV SERIES

New VIV® Isabella

VIV® Rosa
• An Orientalis hybrid
• A strong outdoor variety

VIV® Victoria
• An Orientalis hybrid
• A strong outdoor variety

VIV® Valeria
• An Ericsmithii type
• A good choice for the garden

New Frozen Kristoff

Mon Blanc ^{ppaf}
• The best white with heavy blooms around Christmas
• 20" • Full sun to partial shade
• This is a Niger type, not as winter-hardy in the garden.

Growing TIP

Can be sold green in the first year or overwintered to bloom the following early spring. Best if grown in 7" pots or larger.

These five varieties (Chrystal Love, Emma, Snow Love, Candy Love and Winterbells) are Nigercor types. They are strong growing with good winter hardiness. They are typically spring blooming.

Candy Love ^{ppaf}
• 12" • A very big seller for early season

Emma ^{ppaf}
• 12" • Flowers open white and then change to rich shades of pink

Snow Love ^{ppaf}
• 12" • Spring blooming with white flowers. Little darkening of flowers.

Winterbells ^{ppaf}
• 20" • Full sun to partial shade
• Great rich color - flowers all summer

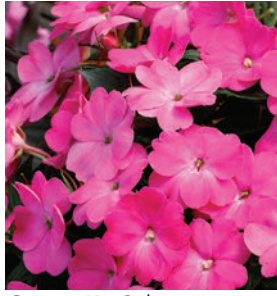

New Chrystal Love

FALL BLOOM - Asters & Mums

Victoria Fanny

Our wide assortment of Asters includes both the Victoria Series from Danish Breeding and the Henry series from Syngenta. We focus on double flowering Asters that are fully hardy.

We offer a full line of Gediflora, Syngenta and Ball garden Mums. Please contact your sales representative for a list of varieties.

PESTICIDES, BIOLOGICALS & CERTIFICATIONS

Regarding the chemicals we use on young plants during the production process, our MPS certificate encourages us to minimize our use of chemical crop protection agents. One way to accomplish this is to use biological controls when possible. For some pests we have been able to be pesticide free. Pesticides and fungicides we use most frequently have a lower residual, making it easier to introduce beneficial insects at the finish stage.

A list of pesticides we currently apply is available at www.dscolegrowers.com. You are also welcome to call and speak to one of our growers at 603-783-9561.

Disclaimer: Pest control is still our main focus. We can never be sure what pest is on the horizon, or what the next pesticide is coming to the market, nor can we be sure what pesticide has been used by one of our unrooted cutting suppliers.

D.S. Cole Growers' Certifications:

- MPS ABC: This certification helps us monitor and make adjustments to our inputs to reduce our environmental impact. Our score tells us when we are improving and in which categories we may be doing better or may need to improve.
- USDA GAP (Good Agricultural Practices): This certificate is achieved and audited yearly. Practices include the safe handling of crops and worker hygiene.
- SANC (Systems Approach to Nursery Certification): This ensures that a producer is using a holistic approach to reduce pest risks associated with plant trade. It is a new program initiated by the National Plant Board to provide a producer the ability to transport plants throughout all of the United States under its umbrella.

FEATURED BREEDERS

ORDER INFORMATION

- Contact us:** Phone: (603)783-9561 • Fax: (603)783-9562 • www.dscolegrowers.com • email:orders@dscolegrowers.com
- Availability:** Availability is live on our website every day at www.dscolegrowers.com
- Cultural Info:** See our website www.dscolegrowers.com or call us directly for cultural information on our products.
- Minimums:** Minimum Per Shipment is 600 plants. This replaces our past procedure of calculating by tray count.
- Below Minimum Charge:** If it is necessary to order less than 600 plants per shipment, a \$10 charge will be applied.
- Multiples/Variety:** All products should be ordered in multiples of 50 cells.
- Late Orders:** We define "Late Orders" as those orders that we receive any day of the week prior to the shipping week. It also includes those received by noon on Monday of the actual ship week. We do not charge a "Below minimum charge" on these orders.
- Order Changes:** Any product additions or a change to the Ship Via to existing orders must happen by the Wednesday prior to the ship week.
- Cancellations:** No cancellations after the product has been stuck.
- Filling Boxes:** Determining how to fill boxes can be a challenge due to the nature of our products. We have a number of box sizes available to make most combinations of varieties fit well without wasted space. In general, it is best for an entire shipment to total numbers in even hundreds, rather than 50s. For example, space is typically better utilized when the plant quantity is 1200, 1300 or 1400 rather than 1250, 1350 or 1450.
- Packing Charges:** Box charges apply only when packaging is needed. Example, trays that travel on shipping carts on our trucks will have no box charge. Trays that require packing for pick-ups, will have a box charge. We pack according to our best knowledge of the weather conditions during transit. There is no extra charge for "winter pack."
- Tray Size:** a) "Strip Tray 50" - ordered and invoiced at 50, includes most Begonias, Geraniums, Alstroemeria, Patio Gerbera, Echinacea, Helleborus and Mandevilla.
b) All other items (other than some collections) are rooted in 51 count trays and billed as 50.
- Tags:** We ship tags with all young plants. This is included in the price. If you don't want to receive tags, please tell your broker and we can accommodate.
- Royalties:** Royalties are included in the price where applicable.
- Shipping:** **Airfreight** - From Manchester, NH, via: Southwest, **Third Party** We use different trucking companies to
From Boston, MA, via: American Airlines, **Trucking** - move both large and small pallets of
United or Delta.
Courier - FedEx
Grower See map and schedule at right. Be advised
Truck that all truck schedules are subject to
adequate volume per area per week.
Pick up - Monday - Friday, 8AM - 4PM
Please call one week ahead to arrange a pick up time.
- Brokers:** The following brokers carry our products:
Ball ColorLink, Ball Seed Co., Eason Horticultural
Resources, Joseph Giannino Co., McHutchison,
Henry Michell Co., Park Seed Co., Griffin, Messick,
Vaughan's Horticulture and BFG Supply Co.
- Warranty:** D.S. Cole Growers, Inc., warrants to the extent of the purchase price that all
products, whether from cuttings or seed, are sold true to name and shall
conform within recognized tolerances. No further warranty is expressed or
implied as to future marketability. Purchaser shall be limited to the invoice value
at the time of purchase of any D.S. Cole Growers, Inc., product as its exclusive
remedy to breach of warranty.
- Claims:** All claims must be submitted to your broker within 24 hours of receipt of product. This includes quality claims as
well as freight and mishandling issues. It is important to provide photos of the plants if there are problems. This
helps us all understand the issue.

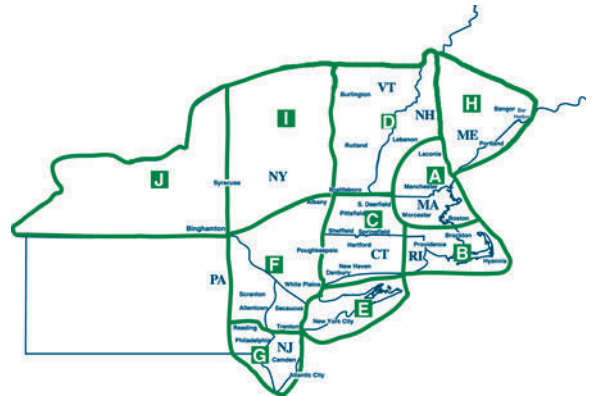

Remember, our
price includes the
cost of the tags,
marketing fees
and all royalties!

When You Order From D.S. Cole Growers:

- Royalties are included in our prices
- Labels are included in our prices
- Marketing fees from our breeders are included in our prices
- No requirement to use branded pots
