## AUBRIETA NEW Series

New New Rock on Purple

New New Rock on Pink

## IBERIS

New Iberis White Shadow ppaF

## SAXIFRAGA NEW Series

New Scenic Pink

New Scenic White

We are pleased to present these supplemental additions to our 2025-2026 catalog, including Perennials, new Assortments, Flowering Annuals, and an offering in each of the categories Companion Foliage and Succulents.

The all new perennials range from butterfly-attracting Buddleja, to the sunniest Coreopsis we've seen, to a collection of colorful Candela Veronica.

Our new Caladium offering will be sold by color (red, white, pink, speckled) and we will ship the specific variety based on the maturity of the crop. They will surely be irresistible in garden centers this spring.

Thank you for making D.S. Cole Growers your trusted source for young plants from all over the world.

New Scenic Red

It is recommended to purchase the varieties on this page in the late summer to vernalize for flowering the following spring.
